Thanks Lisa!

The TDM is to review the AE submittal for completeness, complete the review checklist and note any missing or outstanding items, and flag any issues for EPA that may limit our approval of the exemption. The documents are apparently going to be on a DVD. I will have to get copies burned and mailed to you and Cadmus if you can give me the mailing addresses, but in the meantime as Rob says the documents are all on the DOGGR website. I presume that would include the few items Rob appended to his email to David - transmittal letter and public comments summary and the water board concurrence. I would like this completed by Feb 19 if not sooner.

Hi Michele,

I will send a TD to Cadmus to start the review. I just want to confirm which files Cadmus should review. If you have time to draft up the TD, then I can forward it to Cadmus when I get home from the vet. I plan to work a few hours when I get back.

Thanks,

Lisa

This should be assigned to Cadmus for review. Lisa is now out of the office with her sick doggie ☹. I guess tomorrow then.

Hi Lisa,

That seems to be what Rob is saying in his email message. We'll know for sure when we get the DVD. Thanks, David

Hi David,

It doesn't look like any of the previous documents posted on DOGGR's website have been revised based on the public comments. Is it safe to assume the statement of basis and other documents posted on DOGGR's website other than the final version of the concurrence letter are the "official" AE submission?

Thanks,

Lisa

Subject: California's Applications for an Aquifer Exemption for the Arroyo Grande field

David:

The Division of Oil, Gas, and Geothermal Resources (Division) has placed in the mail today its application to exempt the Dollie Sands in the Arroyo Grande oil field. Attached is the transmittal letter from the Division, a concurrence letter from the State Water Resources Control Board, and a copy of the comments received from public comments and the State's responses. Although we have placed all this information on the DVD that we have mailed today, this information is also available on the Division's website. We look forward to working with the United States Environmental Protection Agency to answer questions and provide any additional information necessary to process this application. If you have any questions, please feel free to contact me.

Sincerely,

Robert S. Habel, Special Assistant
